Brief Introduction

Over all

CAN Technology Co., Ltd was founded in 1979 by Mr. Tao Shen Chen, and it was one of the leading precession plastic mold manufacturer.

More than 30 years of experience in precession plastic mold manufacturing has help to shape the company's capability in product design, and production excellence.

CAN Technology now is one of the leading computer mobile / tablet peripherals manufacturer.

It has built its first mechanical spring key switch keyboard since early 1990s, and has expanded its product line to various wireless keyboards, wireless pointing devices, and bluetooth wireless scissor key switch keyboards. Twenty years of OEM / ODM experience has let to customers's atisfaction.

Development

CAN Technology has its own plastic mold manufacturing facility, and has more than 20 plastic injection machines. We ensure uniqueness of our products to vary from public plastic molds. Recent years we have been focus on developing peripherals for portable devices. The newly developed mini compact size bluetooth keyboard is trendy in design, and it is a perfect input device for portable tablet computers. Beside the bluetooth keyboard, portable bluetooth wireless mouse has made the use of notebook easier on accurate pointing access.

Factory & People

CAN Technology's factory sits in Zhuhai, Guangdong, China, and the development and sales headquarters is base in Jungli, Taoyuan, Taiwan. The factory is ISO 9001:2008 certified, and has obtained environmental certificate. Thorough the management, we ensure workers' rights on minimum wages, overtime pay, and gender equality.

CAN Technology has been effortlessly working to comply with the social standards. Over the past years, we have had been cooperated with world's leading retailers, and well known computer peripheral brands. We are proud and dedicated to provide innovative, high quality products across the globe.

About
CAN Technology

Bluetooth Keyboard

The newly developed Bluetooth keyboard with "X" structure scissor tactile key switch is the best input device for iPad, iPhone, Google Android stations, Windows PC, and MAC.

RoHS

Bluetooth

BT-IOIKB

- It is a mini compact size keyboard, which offers a clean and neat desktop working environment.
- Keyboard is designed in a slim style fashion with isolated scissor structure keys (Chocolate keys).
- Bluetooth 3.0 transmitting solution featuring economical power consumption, it also provides a fast transmitting and reliable wireless connection up to 10 meters.
- This keyboard works with various Bluetooth built-in portable devices, such as smart phones, notebooks, or tablet computers.
- Powered by 2 x AA Alkaline batteries.

SPECIFICATION

BT-IOIKB	
Bluetooth	Broadcom 3.0
Multimedia keys	YES
Manual Power Switch	YES
Dimensions	281*135*19 mm
Compatible System	Windows system / Mac/ iPad/ Android
Color	Silver white
Keystrokes	Slim Scissors

RoHS

ST-IOI Stand for iPad.

- Simple design.
- Stand is specially designed for iPad or e-book users.
- Device may be set either vertically for news reading or horizontally for video watching.
- Anti sliding silicon rubber base helps to set the device steady.
- Available in different colors.

SPECIFICATION

ST-IOI	
Material	ABS
Dimensions	80 x 70 x 50 mm
Compatible System	iPad2 / iPad 3
Color	White / Black

Portable Bluetooth Keyboard

It's a Bluetooth keyboard.

It's a 'x' scissor structure keyboard.

It's a portable wireless keyboard.

RoHS

Bluetooth

BT-IO2KB

- It's a hand grip, compact size Bluetooth wireless keyboard.
- Keyboard is designed in a slim style fashion with isolated scissor structure keys (Chocolate keys).
- Bluetooth 3.0 transmitting solution featuring economical power consumption, it also provides a fast transmitting and reliable wireless connection up to 10 meters.
- This keyboard works with various Bluetooth built-in portable devices, such as smart phones, notebooks, or tablet computers.
- Keyboard cover can be used as cell phone stand for displaying purpose, while it also helps to protect keystrokes from falling apart when carrying the keyboard in a handbag.
- Powered by 2 x AA Alkaline batteries.

SPECIFICATION

BT-IO2KB	
Bluetooth	Broadcom 3.0
Manual Power Switch	YES
Dimensions	121*91*18 mm
Compatible System	ipad / Smart phones
Color	Silver white
Keystrokes	Slim Scissors

Small Portable Bluetooth Keyboard

It's a Bluetooth keyboard.

It's a 'x' scissor structure keyboard.

It's a SMALL portable wireless keyboard.

RoHS

Bluetooth

BT-IO3KB

- It's a hand grip, compact size Bluetooth wireless keyboard.
- Keyboard is designed in a slim style fashion with isolated scissor structure keys (Chocolate keys). It is a small size bluetooth keyboard featuring soft and crisp key pressing feedback.
- Bluetooth 3.0 transmitting solution featuring economical power consumption, it also provides a fast transmitting and reliable wireless connection up to 10 meters.
- This keyboard works with various Bluetooth built-in portable devices, such as smart phones, notebooks, or tablet computers.
- Keyboard cover can be used as cell phone stand for displaying purpose, while it also helps to protect keystrokes from falling apart when carrying the keyboard in a handbag.
- Powered by 2 x AAA Alkaline batteries.

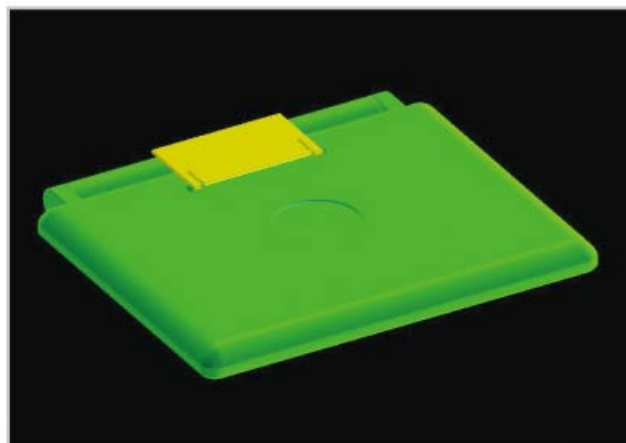

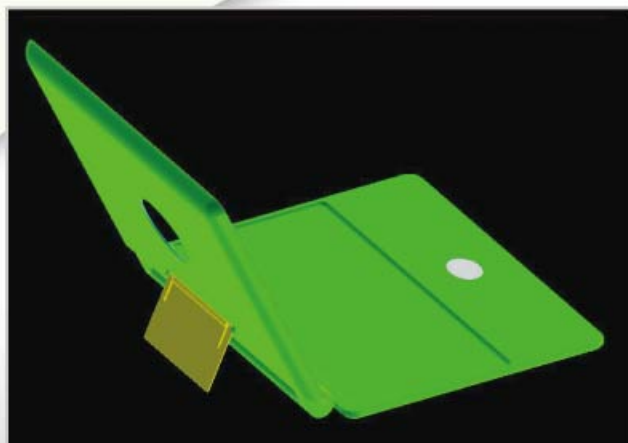

SPECIFICATION

BT-IO3KB	
Bluetooth	Broadcom 3.0
Manual Power Switch	YES
Dimensions	155.6*100*13 mm
Compatible System	Ipad / Smart phones
Color	Silver white
Keystrokes	Slim Scissors

Portable Bluetooth Keyboard with Showcasing.

It's a 'x' scissor structure keyboard.

It's a portable wireless keyboard.

RoHS

Bluetooth

BT-IO4KB

- It's a tablet, but it is an ultrabook. Showcasing your iPad with style and personality!
- It is a smart Bluetooth wireless keyboard for iPad2 or iPad3.
- It makes the iPad2, or iPad3 an ultra book, your iPad is more than just an entertaining device. With this keyboard, writing email, blog, or even a power point presentation has become an easy task.
- The cover can be used as a display stand but also as an iPad protector.
- Broadcom Bluetooth 3.0 module ensures wireless connection stability and device compatibility. Bluetooth 3.0 also features economical power consumption in comparison with the previous Bluetooth 2.0 wireless keyboard.

SPECIFICATION

BT-IO4KB	
Bluetooth	Broadcom 3.0
Manual Power Switch	YES
Dimensions	244.5*207.2*19.5 mm
Compatible System	ipad / ipad2 / ipad3
Color	Silver white
Keystrokes	Slim Scissors
